A demand for the immediate cancellation of the nuclear deal with Iran / a call to trial

Unfortunately, despite international experience in negotiating with totalitarian countries with aggressive imperialist aspirations and abilities throughout history, and especially in the 20th-21st century, you have failed to prevent the agreement with destructive consequences that are inevitable for Israel, the Jewish people, all people of the region, to the United States, and to the West.

On the contrary, the evidence of progress in negotiations toward a desired and expected outcome increase every day. Empowering Iran to the level where it would constitute a complete and immediate threat would thrust the entire region into a state of instability including extreme weapons of mass destruction.

These actions range from criminal offenses to malicious intent and gross negligence.

Despite your claims and the contentions of the United States Secretary of State that the agreement is for the benefit of peace, the very negotiations with a country that for at least 30 years has declared that their aim is to destroy Israel and for that it needs nuclear weapons, as well as their expressed desire to attack 'the Great Satan, USA' are cause for concern to suspect that there is serious impairment to the reasonable discretion of any moral / responsible leader who refuses to negotiate with a country that declares their goal is to destroy a UN member state, or genocide of any kind.

The current agreement has released many of the leaders of incitement from responsibility for their words and action, and this with the full knowledge and consent of the United States and its allies.

To do this, you should have, as president of the United States, been cautious not to initiate or begin negotiations so long as the state of Iran does not declare that it has reconsidered and has no aggressive intentions towards Israel and other peoples of the region and its countries, and Iran's conduct reflects the new policy and provides evidence of factual intentions of its peace, if an exist..

We would like to remind you that this threat to the State of Israel in a nuclear context has been begun as a matter of policy upon the beginning of your term in office, as was made clear by the shocking announcement made by Rahm Emanuel: "Yitzhar for Bushehr", which was in fact a direct threat to dismantle the settlements, even those that are completely legal, or we will not help to avert your annihilation.

2009 .0.7 5 you rebuked your Vice President, Joe Biden, who said Israel has the right to attack Iran

Obama: Israel has no green light to attack Iran

Obama's Vice President, Joe Biden, said on Wednesday that Israel has complete sovereignty to decide whether it wants to attack Iran. President Barack Obama presented a radically different approach in an interview with CNN: "In no way does Israel have a green light to attack Iran"

So your move raises suspicion that it is deliberately promoting genocide for the Jewish people.

We remind you of the serious consequences of your Middle East policy from Libya to Egypt, from Iraq to Afghanistan, and especially your consent which allows the Assad regime its missile attacks using poison gas for at least two years, despite your agreement to dismantle weapons of mass destruction. In practice, this has led to a humanitarian disaster in the entire region.

Since you signed this agreement, which gave you full legitimacy to start the process with Iran, hundreds of thousands of Arabs have been killed, this situation known as 'Arab Spring' has developed as a result of your forsaking Egypt, thus creating chaos in the Middle East and around the world in which weapons of mass destruction or their equivalent are provided by imperialist countries that support Iran or similar elements in different ways.

Therefore, you must immediately announce that you are repealing and suspending the agreement, its non-ratification, due to Iran's proven capabilities for endangering all countries in the region.

You and your co-signers are expected to appear before the Court of Mount Zion on charges of administering wanton and destructive policies conducive to wars and hostilities and the growth of terrorist organizations, their lack of humanity is the result of lawlessness and weakness your foreign policy.

You, as the US president, may resign immediately and be sued personally, forced to pay compensation for the damage you caused towards all the victims of all peoples of the region in relative terms.

The trial against you, as the trial against all of Israel's enemies, if you do not repeal this diplomatic agreement, will be held on Mount Zion, the fifth of Elul, 5775, [9.9. 2015] at 12:00.

You can send a representative for your defense or your own lawyer, and the court shall not appoint a representative to represent the United States and your policy and you personally. These things applies to all partners signing the agreement with Iran.
